Forecast for Friday 23 Aug 2024

Weather: Cloud and patchy rain will thin and lift during the morning. From there generally a dry and bright day with sunny spells although showers will develop, these will move through quite quickly on strong westerly winds. Perhaps the odd heavier shower in the west towards Ben Alder during the afternoon or evening.

Chance of cloud-free hill tops above 800m: 50% at first, rising to 90% during the day, patchy low cloud around higher summits in showers.

Low cloud and visibility: Areas of cloud lingering at first from 400m will lift and clear through the morning. By day patchy low cloud above 700m first thing and around any heavier showers in the west. Visibility will be very good or excellent during the day, dipping moderate in any heavier showers in the west.

Met Office Aberdeen Meteorologist’s View

Strong winds at height during the day and especially gusty near showers, the Cairngorm plateau will be windier than the winds published.

Forecast for Saturday 24 Aug 2024

Weather: Overnight rain or showers expected through the morning, but then mostly dry and bright during the day on Saturday. Showers increasing during the afternoon but mostly affecting western ranges with brighter conditions in the east. Strong Southwesterly winds again. Feeling chilly in strong winds.

Maximum wind: Southwest 25-30 gusts 35-40mph

Chance of cloud-free hill tops above 800m: 30% overnight increasing to 90% during the day, dropping to 50% again in the evening.

Low cloud and visibility: During the morning, layers of scattered or broken cloud above 600m, these will mostly lift and clear with most summits clear during the day. Patchy cloud around higher summits in the west during the afternoon, mostly coinciding with showery conditions.

Temperature: **Glens:** Plus 8 rising to 13 Celsius.
 At 800m: Plus 5 Celsius.
 Freezing level: Above all summits
